

Rain Garden Kit

Height: 3 – 5ft

Kit Details: 36 plants; six plants of six different species. Species included will be suited for Aitkin County in a variety of bloom times and blossom colors.

The rain garden kit is perfect for small areas that may catch a lot of stormwater. Bright, vibrant native plants will bring in pollinators and insects, including Monarch Butterflies.

Prefers moist to mesic to wet soil in full to partial sun.

Planting Recommendations: 12"-24" spacing. Remove unwanted vegetation including weeds. Dig a hole slightly larger than the plug, plant in hole & press soil around plug.

Maintenance: Routine cutting, no shorter than 7 inches from the ground. Keep up on weeding to give the native species room to grow.
